# Our purpose and our areas of work

- Workbook (?name change)
- Focusing on one project to ensure completion
- Parent feedback questionnaire prior to assess need
- 1<sup>st</sup> draft completed, circulated and revised
- 2<sup>nd</sup> draft now being used, with revised dietary information (currently being trialled on 4 patients)
- Recognised value in re-educating current patients/families
- Feedback form in booklet & Look at HbA1c at 3 months and 1 year

# Impacts QI had on other areas of work

- Consistency of structured education: including school staff training, cook and eat sessions, High School peer support groups
- Reflection that our fortnightly MDT meetings were long: led to Clinical Psychology peer support groups
- New information board for clear communication of forthcoming work (e.g. pump changes, group trips, training dates)

# One barrier that is bugging us

- DSNs office recently moved and changed to a smaller room (previously had space for weekly MDT meetings)

Moved MDT into designated Seminar Rooms

Coordination of room bookings

Time limited

Focused the team

Allowed time for QI work

Fewer interruptions

# QI summary

- The team are working more efficiently in weekly meetings.
- QI has created a culture in the team of communicating and embracing changes that will benefit the service.
- Implementing ideas and completing!
